

Mr. Andrew Staples
Middle School Comprehensive Science Teacher

Mr. Andrew Staples teaches Middle School Comprehensive Science at FCA and is passionate about investing in students during the important middle school years while helping them grow academically, personally, and spiritually.

Mr. Staples holds a Bachelor of Arts in Church Ministries from Nelson University (formerly Southwestern Assemblies of God University) with a minor in Marriage and Family Counseling. He also maintains Florida State Teacher Certification in Middle Grades Science (Grades 5–9) and ACSI Teacher Certification.

Mr. Staples began his teaching career in 2019 and joined FCA in 2023. He enjoys encouraging students to overcome challenges and become the best versions of themselves. He reminds students that setbacks can become opportunities for growth, perseverance, and greater confidence.

Faith is intentionally integrated throughout Mr. Staples' science classroom. As students study the natural world, they are encouraged to recognize God's design in creation, develop a biblical worldview, and understand their responsibility to care for God's creation.

Outside the classroom, Mr. Staples enjoys movies, video games, Legos, and football. These interests often help him connect with students and create engaging, relatable learning experiences.
